MARUTI TAPES INTERNATIONAL

Handling & Storage:

- Rolls should be stored flat on their cut edges in the original packing.
- The product must be protected from dust, heat, moisture, direct sunlight and solvent fumes.
- The storage temperature should be as per room temperature.
- Relative humidity $50 \pm 10\%$ in original Packed Cartons.
- Use within 6 Months from receipt of the material.

Know-how of Tape Application & Usage:

- The substrate surfaces should be clean, dry and free from dust, grease, oil or other contaminants before applying.
- The Coated adhesion depends on the contact area therefore when applying it requires proper pressure by roller or hand & time helps improve the adhesion strength.
- Applicator's hand needs to be clean, dry and dust free.
