HYDRICH Alkaline Water
Hydrich NG (next generation) Beverage Pvt Ltd

-  Natural Enriched
-  Benefits for Acidity
-  Alkaline Water
-  Better Hydration
-  Better Properties

WHY SHOULD WE DRINK ALKALINE-ANTIOXIDANT WATER?

-  **Alkaline pH**
The water from the alkaline water bottle is alkaline in nature with its pH ranging from 7.5 to 8.5. Drinking this kind of water has many benefits compared to drinking regular purified water.
-  **Negative ORP**
The alkaline water bottle gives you water with a negative ORP which means it is antioxidant in nature. Regular purified water has a positive ORP. Products with a negative ORP value are good for health and delay ageing.
-  **Mineralization**
Alkaline water from the bottle contains alkaline minerals like calcium magnesium, zinc and potassium. These minerals have numerous health benefits for your body.
